Presidents Report

The college assembly meeting will be starting soon at a new location. The hazards meeting Sadie and Sam went to, said there were no major incidences were reported. Everything reported was due to environment and there have been solutions set in place.

Vice-President Report

Wow week, pizza was a big turnout.

Clubs and Emergency Officer Report

Orientation day was a great turn out. We handed out over 250 bus passes, Monday September 24th more than 100 bus passes were issued. That's a total of over 300 bus passes. Helped in building 17 for people to register online. A lot of people come to talk about changing or dropping classes.

Legislative Officer Report

September 24th sent out emails for committees, got some responses including a meeting with Shelly and Ray for the diversity committee. This meeting will be to set some goals and their mission statement.

Public Relations Officer Report

Wow week, Numbers were great. Monday pizza over 225 people, carnival ride over 25 people, voter registration over 104 people. Flyers almost done, should be done by October 5th.

Advisor Report

Wow, thanking everyone for help. September 1-5th should have one-one meetings. Voter registration shifts set up to get student registration with ipads and getting out on campus in twos. We will be talking about guided pathways in the meeting October 3rd.

New Business

a) Guest Speaker – College Assembly (Richard Hines)

Got a copy of the priorities paper. College Assembly is 1 of the 3 main govern bodies. October 2nd meeting, Asg/Student life host first meeting. Breaking meetings in half, 5minutes for presentation then a tour. Going to a room shows how you can use the department or area and build bonds. 3 slides, video presentation, being recorded. How all work comes into guided pathways. We want College Assembly to help with priorities paper. Bento box, new concept meeting is a presentation and performance not just a report, to make people more involved. Monitor who is listening and follow, how things are working for student updated daily or weekly.

b) Presentation - Manufacturing Day, October 5, 2018 (Richard Hines)

500 registered students, 10-12 employers, 10 programs opening doors. Computer programming, computer networking and system security, construction. Building self-driving cars, drones, examples industrial technology. Friday October 5th.
