

# IBEST Computer Assisted Design

## Architectural Drafter Aide

Architectural Drafter Aides assist in the preparation of detailed drawings of buildings and maps for use by architects and civil engineers in the construction of homes, highways, bridges and public works.

## Program Details:

Students will learn the basics of computer-assisted architectural design, including the exciting environmental applications, leading to employment as an Architectural Drafter Aide, or earn priority registration into our Architectural Engineering Design certificate and degree programs. CAD IBEST is eligible for Federal Financial Aid, and many students qualify for Opportunity Grants.

Come join the rapidly growing and in demand architectural drafting field!

Architectural Drafter Aides average \$17.07/hour\*\*  
Architectural and Civil Drafters average \$24.58/hour\*

## IBEST Computer Assisted Design

No diploma or GED?

No problem!

IBEST combines basic academic skills and English language development within the Architectural Design program. In just three quarters, you can qualify to work as an Architectural Design Aide.
