

# IBEST

## *Integrated Basic Education & Skills Training*

### *What is IBEST?*

It's a technical training program that combines adult basic education/English language learning with technical skills training to prepare students for a high demand job or to continue on for a longer certificate or degree in a related field. IBEST programs are selected based on high demand, living-wage criteria.

### *What IBEST programs are available at CPTC?*

CAD: Computer Assisted Design

Prepares students to work as Architectural Design Aides, or continue on to the Architectural Design degree program.

NA-C: Nursing Assistant – Certified

Prepares students to work in the nursing field, or continue on to the Licensed Practical Nurse or Registered Nurse degree programs.

CDS: Chemical Dependency Specialist

Prepares students to work as Chemical Dependency Professional – Trainees, or continue on to the Human Services Chemical Dependency degree program.

Other programs are always in development!
