This video will demonstrate how to add a class to the automated waitlist and how to check your waitlist. The Waitlist option is available when a class section is full.

If selected, you are placed on the class waitlist in the order received. The automated waitlist runs once every 24 hours and adds the next person in line when a seat becomes available.

The Waitlist system does not send automated notifications when students get enrolled into a class. Students will need to view their waitlist regularly to monitor enrollment into a waitlisted class.

To add a class to the Waitlist, you will need the 4-digit item number. If you don’t have the 4-digit item number, it is found in the class schedule. For directions, watch “Using Class Schedule Video”.

To add a class to the waitlist, go to the My Clover Connection website, www.cptc.edu/mycc

Scroll down to Enrollment Services and click on “Register”. This will redirect you to the registration site. Click on “Web Registration”.

You will need to enter your Student ID (identification) number, then enter your Student PIN. Select the quarter and click on “Register”.

Your name appears and you will need to confirm your registration by clicking “Continue”.

At the top right corner of the page, you will see 5 white entry boxes. Type the 4-digit item number you wish to add to your Waitlist.

You may add multiple item numbers at once. Once you have all your item numbers entered, click “Submit Add/Drop”.
