Earthquake

During the earthquake:

1. Stay calm and stay where you are. If you are indoors, stay indoors. Take shelter under a desk or table or along an inner wall. Move away from windows, outside walls, glass, or outside doors. If you are outdoors, stay there. Move away from overhead electrical wires, poles, or anything that may shake loose or fall.
2. Remain in your sheltered area until it is safe to evacuate.
3. Evacuate the area.

After the earthquake:

1. Be prepared for additional aftershocks which may be as strong as the initial earthquake.
2. After the "all clear", be extremely careful when entering any buildings
3. Do not use any open flames until advised that there are no gas leaks.
4. Stay away from fallen or damaged electrical wires.
