Clover Park Technical College
Sustainability Plan 2014-2017

**Vision**

Clover Park Technical College values innovation, education, and social responsibility of environmental sustainability. We demonstrate commitment to educating students and staff on sustainable practices on campus and in industry while reducing our own carbon footprint.

**Mission**

Deliver an interdisciplinary approach to economic, social, and environmental development through sound ecological practices and the collaborative effort of staff, students, and the community to benefit present and future generations.

**Values**

We believe in…

- Innovation
- Education
- Collaboration
- Recycling
- Repurposing
- Awareness
- Responsibility
- Accountability

**Our Purpose**

The Sustainability Committee is here to provide education and opportunities in support of the goals of the Sustainability Plan. Committee Members will serve as liaisons to senior administration and the college assembly to assist in the achievement of our sustainability values and goals.
