General Discussion

We are all going to the legislative academy, Sam is driving, Tim, Quan, Sadie. Sandra is driving herself after class.

Approval of agenda

Tim Kvamme motioned for the approval of agenda, Sandra Lopez seconded, and motion carries.

Approval of minutes from 10/24/2018

Tim Kvamme motioned for the approval of minutes from October 24th, 2018. Quan Tran seconded. Motion passed.

Presidents Report

All Hazards meeting didn't have hazards, building 16 has vent issues but that's being worked on, it's a matter of funds and the chestnut tree is still a hazard there's nothing that can be done so don't step on the chestnuts.

Vice-President Report

Went to a meeting about statistics on collaborations of students and presentations. It talked about how numbers of data has decreased or increased. It's important to look at numbers from surveys for helping students succeed in the classroom.

Clubs and Emergency Officer Report

Club council meeting on October 30th, with a guest speaker Cal talked about the budgets how to use for conferences. They talked about presence/canvas training. They also talked about fall fest on October 31st. There were 3 winners for fall fest costume contest, best makeup, best replica, and most creative. For the pumpkin carving contest the Dental Assistant club won and get a pizza party.

Legislative Officer Report

N/A

Public Relations Officer Report

Fall fest had 360 students, 11 guest total of 371 people not including the people who didn't check, some people just walked around.

Advisor Report

Cal is going to Pierce transit, we budget in February/March Pierce transit budgets during the calendar year. So he is working to get a contract signed. Legislative Academy everyone is going, Sam is driving everyone, Sandra is driving after class. should be a good conference to prepare everyone. Cal will be on leave in January and February, while story takes over. The budget committee will start submitting budget request. We will hear about it in February. We will be trained then the committee members will be trained. Flu is going around so take care of everything you need to so you stay warm and not sick.

Public comment

We have spoken to the all hazards leader for skateboards/hoverboards not being allowed on campus. There is no where that states these are not aloud on campus but people are getting stopped and told to put them away. There is a rule that talks about vehicles and that includes anything with a wheel. We are in the process of talking to Lisa Beach. Cal talked to her a little

bit, she wants to hear what we have to say about the proposal. We need to do our research, see what other colleges allow.

New Business

- Cyber Tech Club - Nolan

Club cyber tech has been around for a long time. They promote security and technology, we have fixed things around the school like printers or computers. We have also went to conferences outside of the school as well as have guest speakers come in, have regular meetings and projects, we do workshops and help with fest. Every once in a while we will get people outside of the academic program but its not common. They have tried to collaborate with other clubs. They do plan on doing a conference April 21 for linux fest which is a separate budget. They won't need the normal amount of money, looking for general parts for projects. Motion was made to approve and seconded, motion passed.

- Linux Club - Spencer

The point is to show people the open source system and linux in general. The idea is to promote this, open source which is a free to use and adapt. Take something and pass it on to other people. Help people use it daily and show them how it is used. They also want to do linux fest, which is a separate budget request. They will just need the general budget for meetings and projects. For students outside of the program, fall fest was the first time and they are going to building a plan to figure out how to approach others. Motion was made to approve and seconded, motion passed.

- OOPS Club- Bryce

This stands for "Object Oriented Programing" basically it's an extension to our program to help people with projects. They might need to do a budget request. They should just need the general budget for meetings. Fall fest was the most recent time they attempted to reach out to other students. They want to reach to someone on the Board of Trustees for a tour of a facility. Motion was made to approve and seconded, motion passed.

- Nursing Club - Camille

They wanted information on things like the pinning ceremony. They don't have plans for off campus. They also need to get information about the end of the quarter get together, they are going to connect with Jessica. They reached out to other students during fall fest with a blood pressure system up. It's not really possible for people outside of their academic program because they are so program based. Motion was made to approve and seconded, motion passed.

- Dental Assistant Club - Sarah

They volunteered at Hayes Childcare to show them hygiene and get them involved in dental. They won at Fall Fest for the display. At Springfest they had students sign up fir

free x-rays. They are working with 1st quarter students take over and helping them in general. No plans for off campus travel. They would like to travel in summer but not sure yet. They also should not need any more than the general budget. Motion was made to approve and seconded, motion passed.

Old Business

none

Good of the order

Adjournment

The meeting was adjourned on November 7th, 2018 at 3pm.

Approved by Sam Hardy, President of Student Government
