

CAREER
CONFERENCE '23

**DREAM.
EXPLORE.
ACHIEVE.**

**WEDNESDAY, MAY 10
9 A.M. - 1 P.M.**

LAKWOOD CAMPUS
4500 STEILACOOM BLVD SW
LAKWOOD, WA 98499

WELCOME TO CLOVER PARK TECHNICAL COLLEGE!

CAREER CONFERENCE '23

ARE YOU READY TO EXPLORE OUR CAMPUS?

Today you will get a chance to:

- Connect with over 40 programs in 7 different areas of study!
- Connect with faculty, staff, and CPTC students
- Enjoy the 29th Annual People's Choice Car & Bike Show
- Attend workshops
- Visit the Employer Engagement Fair
- Stop by food trucks
- and most of all **HAVE FUN!**

LPN – RN Transition Program!

The LPN-RN Transition Pathway leading to an Associate Degree in Nursing prepares Licensed Practical Nurses to transition to the Registered Nurse role. Graduates of this program are eligible to take the NCLEX-RN exam.

- The RN provides patient care independently using critical thinking while utilizing the nursing process.
- Administers medications, treatments, performs skilled nursing procedures, and documents in the patient record.
- RN's are employed by acute care settings, long-term care facilities, outpatient settings, clinics, schools, and many other places.
- Program will be offered during the evening and weekend hours and on a part-time basis.

Bachelor of Applied Science Degrees at CPTC

Open the door to additional career opportunities with a Bachelor of Applied Science degree from CPTC.

Our human-centered hybrid delivery model offers hands-on learning to help students gain real-world work experience as they learn

- Bachelor of Applied Science in Cybersecurity (BAS-C)
- Bachelor of Applied Science in Interior Design (BASID)
- Bachelor of Applied Science in Mechatronics Engineering Technology & Automation (BAS-META)
- Bachelor of Applied Science in Operations Management (BAS-OPM)

Advanced Manufacturing Fair

Building 24

Join us at Clover Park Technical College's Manufacturing Fair and discover the exciting world of modern manufacturing! Did you know that the manufacturing industry is responsible for over 12 million jobs in the United States alone? Come learn about the latest technologies, see demonstrations, and meet with instructors. Don't miss out on this opportunity to explore a career in manufacturing!

CPTC South Hill programs are here today!

Building 23, Student Center

We're pretty sure you don't want to walk to our South Hill Campus in Puyallup today to check out our programs, so we brought them to you!

From the School of Aerospace and Aviation:

- Professional Pilot
- Aviation Maintenance Technician
- Avionics

Employer Engagement Fair

Building 23

Join us at the McGavick Center from 8 a.m.-3 p.m. for the Employment Engagement Fair. Employers will offer information about their organizations, job postings, and on-the-spot interviews.

CPTC PATHWAYS

SCHOOL OF AEROSPACE AND AVIATION

SCHOOL OF SCIENCE, TECHNOLOGY, ENGINEERING, AND DESIGN

SCHOOL OF AUTOMOTIVE AND TRADES

SCHOOL OF ADVANCED MANUFACTURING

SCHOOL OF NURSING

SCHOOL OF HEALTH AND HUMAN DEVELOPMENT

SCHOOL OF BUSINESS AND PERSONAL SERVICES

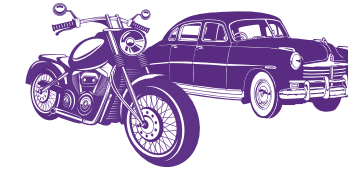

2023 PROGRAM DEMONSTRATIONS, ACTIVITIES, AND WORKSHOPS

Some program demonstrations and workshops have scheduled presentations; please check their presentation times in advance on your schedule.

BUILDING 3

29TH ANNUAL PEOPLE'S CHOICE CAR & BIKE SHOW 🚗

Look for the purple tent and meet with our students and instructors to learn more about how to get started in the automotive industry, THEN walk around the car show and find your favorite car to vote for.

AUTOMOTIVE COLLISION 🚗

In our Auto Collision program you will learn how to shrink, stretch, and straighten metal. You will learn preparation color mating and top coat application, and you will remove, install, and align panels, doors, and trim to meet industry standards.

AUTOMOTIVE TECHNICIAN 🚗

Ask about these certifications earned in our Automotive Technician program: Drive Train, Electrical, Electronic & AC/Heating, Engine Repair, Front End & Brakes, and Ford Maintenance & Light Repair.

UPHOLSTERY 🚗

The upholstery program provides a hands-on learning environment where students learn how to upholster through demonstrations they can apply to their own projects. Stop in and get details on this in-demand career program.

BUILDING 5

CONSTRUCTION TECHNOLOGY 🏗️

Stop by our Construction classroom to see housing projects our students have been building. Also offered today is a small construction project, the first 100 students who visit will be able to make a toolbox to take home with them.

BUILDING 8

Entrance is on the EAST side of this building.

COSMETOLOGY 🌸

Personal Care Services

If you are a creative people person, then cosmetology is for you! CPTC students are known for their hair designs. Visit the program today for a colorful hair tinsel activity and get your sparkle on! Then take a pic of how you will shine in a cosmetology career.

ESTHETIC SCIENCES 🌸

Personal Care Services

See your skin though the skin scope – this will convince you to wear sunblock! Attend ongoing presentations with the tools of the trade.

BUILDING 11

ACCOUNTING 🧮

Room 127

If you love numbers, attention to detail, and accuracy, then Accounting is for YOU! Try your hand at budgeting and money management. Stop by to see how to get your Accounting Degree that will put you to work.

GRAPHIC TECHNOLOGIES 🖨️

Room 158 and 154

Check out the second largest manufacturing industry in America. From business cards to billboards, print production to web design, come and see your opportunities.

BUILDING 14

DENTAL ASSISTANT 🦷

Dental Lab

Take an interactive tour through the Dental Assistant Lab. Students will show you dental techniques used in this high-demand field and get your chance to check for cavities with your new patient, Dexter. Perhaps Dexter will let you take a selfie with him?

ELECTRICIAN LOW VOLTAGE FIRE/ SECURITY 

Room 213

SMILE – you will be on camera! See the latest in security techniques used in homes and businesses. The Electrician Low Voltage Fire/ Security program will show you the latest biometric scanners and the smallest covert cameras used in this industry. Test your skill with a pan tilt zoom camera or programming a voice evacuation fire alarm system.

BUILDING 16**NETWORK OPERATIONS AND SYSTEMS SECURITY** 

Room 107

Do you want to play a game? You may be a good fit for a career in Computer Networking and Security! If you love working with computers and want to help protect people from digital threats, this may be the program for you. Our Computer Networking & Information Systems Security program prepares students for a wide range of career opportunities protecting computers and networks. You'll learn how to prevent cyber threats, support, design, implement, and administer computer networks and systems. The style of hands-on learning means we do it, then we break it, then we fix it.

ENVIRONMENTAL SCIENCES 

Room 103

If you like working with our environment and working outdoors, then stop by and visit with our students in Environmental Sciences. Explore environmental careers, use indicators to determine water quality, and learn about hazardous waste site operations.

BUILDING 19**ARCHITECTURAL ENGINEERING DESIGN** 

Room 201

Stop by the Architectural Engineering program to see demonstrations of CAD software, the fun way to visualize your house designs in 3D. There will also be ongoing presentations.

BUILDING 21 HEALTH CARE FAIR**CENTRAL SERVICE/STERILE PROCESSING TECHNICIAN** 

Room 139

Interested in a very high-demand job in the medical field? Come see the instruments doctors use during surgery. Package and take home your very own surgical instrument (while supplies last). Qualify for a job in just three quarters. Perfect for people who want to work in the medical field but don't want direct patient care, this program prepares you to work with operating room staff, providing them with sterile instruments and supplies needed for surgery.

HEALTH UNIT COORDINATOR 

Room 105

This two-quarter program prepares students to coordinate activities at the nursing unit desk, including transcription of physicians' orders, scheduling diagnostic studies and appointments for follow-up care.

MEDICAL ASSISTANT 

Room 121

Come see our Medical Assistant students in action. Students will be checking patients in by taking their vital signs. This program prepares you to work in physicians' offices, clinics, and other outpatient health care setting.

MEDICAL HISTOLOGY TECHNICIAN 

Room 232

This program trains students to prepare thin sections of human, animal, and plant tissue for microscopic examination. Prepare for entry-level employment in clinical, veterinary, and research laboratories.

MEDICAL LABORATORY TECHNICIAN 

Room 222

This program prepares students to work in clinical laboratories. Check out red and white blood cells under the microscope! Join the interactive tour of our laboratory stations.

NURSING 

Lobby

NAC/LPN/RN

The Nursing programs will be demonstrating how technology helps in preparing students to save lives. You might see asthma, a heart attack, or some other health problem in action, as well as some friendly guidance in how to recognize what's going on. It's the health adventure of a lifetime!

PHARMACY TECHNICIAN 

Room 226

Come have some fun with our pharmacy technician students counting, pouring, and compounding with candy. You will also be able to tour the pharmacy lab.

SURGICAL TECHNOLOGY 

Operating Room – 132

Surgery is a delicate process that requires a whole team to function properly. The role of the surgical technologist is to help the procedure go as smoothly and efficiently as possible by anticipating each move the surgeon is going to make. Take a tour of the Surgical Technology program and observe a mock operation today.

BUILDING 23**AVIATION MAINTENANCE TECHNICIAN** 

Student Center

Aviation Airliners, business jets, helicopters, general aviation aircraft and more. Learn how to build and repair all kinds of aircraft in this hands-on program that trains at our South Hill Campus.

AVIONICS TECHNICIAN 

Student Center

In our Avionics Technician Program, you will learn the operation and maintenance of the electrical systems on an aircraft. This includes indication and operation of the communication, radar, autopilot, and in-flight entertainment systems

COMPUTER PROGRAMMING 

Room 111

Come check out a project Computer Programming students have been working on—Self-driving RC cars! These cars use a \$35 Raspberry Pi (a credit card sized computer), and machine learning to learn how to drive after observing a human control the RC car.

CONSTRUCTION TECHNOLOGY 

Student Center

Our Construction Technology students get hands-on experience with residential construction, with the opportunity to build a tiny house from start to finish. With the Construction Technology Degree, you also learn Leed Energy Auditor Home Inspection.

CULINARY ARTS 

Student Center

Meet the future chefs of America! These programs emphasize fine dining and food production in the kitchen and in the front of the restaurant. Future employment may include: restaurant manager, catering, banquet manager, sous chef, executive chef, or station cook. Stop by and check out this sizzling program!

DIGITAL ENTERTAINMENT DESIGN & PRODUCTION 

Student Center

Come check out our digital program and see demonstrations with 3D modeling, work in unity 3D, and check out the green screen!

Potential careers include video game designer, camera operator, video editor, multimedia artist and animator.

EARLY CARE & EDUCATION 

Student Center

If you want to make a difference in children's lives, our Early Care & Education program can prepare you to work as a child care director, teacher, and lead or assistant child care provider.

HEATING & AIR CONDITIONING/ REFRIGERATION SERVICE TECHNICIAN 

Almost every building has some form of heating, ventilation or air conditioning, and when those systems break it can cause an emergency. This industry is already in high demand and growing quickly. Technicians with integrity and great diagnostic and repair skills can be rewarded with very high wages.

HUMAN SERVICES 

Student Center

If you want a career helping others, this is the program for you. Stop by and visit with our students and learn how this program will help you help others.

INTERIOR DESIGN 

Student Center

If you are creative, stop by and check out your job possibilities in this program. Future employment opportunities may include: residential design, kitchen and bath design, office design, store planning design, and much more. See samples of our students' work.

PASTRY ARTS 

Student Center

If you love preparing pastries and creating exciting cakes, or you believe food presentation can be a form of art, this is the program for you. Learn some basic cake piping skills today – test your skills here!

PROFESSIONAL PILOT 

Student Center

If you dream of taking to the skies and flying to far off places, the Professional Pilot program and career path may be the perfect fit for you. The program offers an associate degree and numerous certificate options.

RETAIL BUSINESS MANAGEMENT 

Student Center

Our Retail Business Management degree prepares students for careers in marketing, sales, retailing, customer service, entrepreneurship, and general business applications.

BUILDING 24**MANUFACTURING** 

Room 100, Lab

Tour the world of manufacturing. See projects in action on the VF-O Brushless CNC Machines and the 5 Axis machinery.

MECHATRONICS 

Room 103, Lab

Mechatronics is a multidisciplinary subject combining mechanical, electrical, telecommunications, control, and computer engineering. This makes it applicable to a wide range of growing industries including automation, robotics, advanced manufacturing, and aerospace.

NONDESTRUCTIVE TESTING 

Building 24, Room 113

Our Nondestructive Testing program prepares graduates for positions such as quality control technicians, NDT technicians, engineering technicians, and NDT equipment representatives. Nondestructive testing techniques are used to examine structures or vehicles such as bridges, dams, pipelines, aircraft, trains, and nuclear reactors.

BUILDING 25**WELDING TECHNOLOGIES/ HEATING VENTILATION & AIR CONDITIONING** 

Welding Lab

Welding opens up a world of creativity, giving someone the power to lay out, fit up, and fabricate just about anything they can imagine out of metal. There is an instant gratification that comes from building useful objects out of metal, and that's something welders get to experience every day.

FOOD OPTIONS**BON SUCRE** (Building 23)

Check out pastries and goodies made by our own Pastry Arts students.

- *LA RUCA
- *LEGENDARY DONUTS
- *SQUISHY POP
- *STACKS BURGERS
- *STARVIN' MARVIN

*Food trucks will be located in the parking lot between building 23 and 24. Additional food trucks will also be by Building 3.

MORE WORKSHOPS**FAFSA/WASFA Application Assistance****Building 19, Room 124**

The most vital step in applying for Financial aid for college is to submit the FAFSA® (Free Application for Federal Student Aid) or WASFA (Washington Application for State Financial Aid) form. Drop in to get help submitting your application. All students who complete their FAFSA/WASFA at CPTC today will be eligible for an incentive gift.

NWCTHS/Running Start**Building 14, Room 109**

Do you want to save money and start your career earlier? Come check out our High School to College Pathways workshop! You will learn about the Running Start program and Northwest Career and Technical High School. First session starts at 10 a.m. and the second session starts at 11:30 a.m.

The MOSAIC Center**Building 23, Room 118**

Stop by the MOSAIC (Multicultural Office of Student Access, Inclusion, & Community) Center! We are an inclusive space that engages and supports personal and collective cultural awareness and advocacy work for students, staff, and faculty

Through events, workshops, and programming that focus on ED&I, we engage and empower students in identity development, self-advocacy, and activism that lasts beyond graduation and leads into their next chapter after CPTC.

HIGH SCHOOL OPTIONS AT CPTC

RUNNING START

Bldg. 14, Room 109
Two 30-minute sessions, 10 and 11:30 a.m.

If you have chosen a career direction and can benefit from college instruction, we have NEW updates with our Running Start program at Clover Park Technical College. We are offering more general college courses in the fall (both online and at our South Hill Puyallup Campus) to meet local high schools' graduation requirements.

NORTHWEST CAREER & TECHNICAL HIGH SCHOOL

Bldg. 14, Room 109
Two 30-minute sessions, 10 and 11:30 a.m.

This high school allows students to earn a high school diploma while earning a certificate or degree in a technical field. We combine a rigorous educational program with career guidance and high-quality career and technical education. Choose from two enrollment options that will fit your schedule.

To find out more information on this Accredited High School program, attend one of our workshops with Loren Davis, Director of the Northwest Career and Technical High School.

INFO SESSIONS

Join us virtually or in person to learn more about CPTC or the programs. We offer Virtual General Info Sessions every 1st and 3rd Wednesday of the month at 3pm and Program Info Sessions every 2nd Wednesday of the month at 3pm. We also offer in-person Program Info Sessions every 4th Wednesday of the month at 3pm.

Visit www.cptc.edu/info-sessions for more details.
