# **Bachelor of Applied Science in Environmental Sciences**

## **Introduction**

The Bachelor of Applied Science in Environmental Sciences program at Clover Park Technical College has admission requirements beyond those necessary for general admission to the college. The admission criteria include your academic record, personal characteristics, and potential to work in the Environmental Sciences field.

Applicants are admitted for a fall, winter, spring and summer quarter start. Please follow all directions in this application carefully. Failure to comply with the process described in this document may result in disqualification from the admissions pool for this program.

## **Bachelor of Applied Science in Environmental Sciences**

### **Is This Program Right for You?**

CPTC's Bachelor of Applied Science in Environmental Sciences (BAS-ENV) degree has been designed for those pursuing employment as an environmental technician, biological technician, or natural resources technician. The program is also intended to provide advancement opportunities for those currently employed in an environmental field who lack the required credential for that advancement. Graduates with technical associate degree wanting to advance their career options in environmental sciences are welcome to apply.

In the BAS-ENV program, students will learn about laws and regulations involving the environmental and natural resources, develop leadership and management skills, and use scientific methods, data, and instruments in managing and solving real world environmental problems. Focused-study courses and individual capstones help develop the critical thinking skills required for a successful career in an environmental sciences field.

This degree has been designed to meet the educational needs of working adults. It is based on a combination of online, hybrid, and in-person instruction with courses meetings scheduled at times convenient to students.

In addition, contact the Bachelor of Applied Science Navigator, Kristen Bate ([kristen.bate@cptc.edu](mailto:kristen.bate@cptc.edu)) if you need any assistance through the application process.
